Quality,  
environmental, health  
and safety policy

## Quality policy

Variosystems Quality Policy is to consistently deliver products and services that meet our Customers and Integrated Management System requirements while complying with applicable statutory, regulatory and legal requirements through monitoring and maintaining the continuous improvement and effectiveness of the Integrated Management System.

## EHS policy

The Variosystems EHS policy is energy saving and environmental protection, safety first, prevention-oriented, employee participation, regulatory compliance, continuous improvement, to provide a safe, healthy and environmentally friendly working environment.
